DETAILED ACTION

Response to Amendment

Applicant's Amendment filed on Sept. 8, 2006 has been received and entered. Claims 1-9 are cancelled and claims 18-27 are newly added. Therefore, claims 10-27 are now pending in the current application.

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

- I. the specifics of a MVA LCD panel wherein the first electrode pattern is parallel to each data line, comprises a first embodiment corresponding to Figure 4 (claims 10-18);
- II. the specifics of a MVA LCD panel wherein the first electrode pattern is perpendicular to each data line, comprises a second embodiment corresponding to Figure 5 (claims 19-27).

The species are independent or distinct because with the different electrode pattern arrangement results in different alignment of the liquid crystal molecules, thus result in different viewing angle properties, hence are patentably distinct from one another.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Art Unit: 2871

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
